YEARS
UNIVET
ANNIVERSARY

DESIGN

Design, prototype, die machining, milling and finishing of each single component, optic manufacturing and alignment, up to the most delicate phase of lens fastening.

CREATION

Precious and noble materials, finishing, components and accessories, together with the Italian manufacturing tradition, enrich each model to make it an heir of the Italian tradition and culture.

DETAILS

Care for the details, the best craftsmanship into a reliable industrial process, a constant innovation, thanks to an in-house laboratory dedicated to the development of technologies, materials and coatings.

INTEGRATION

A distinctive character, immediately recognizable, exclusivity, total personalization, value, style, to offer more comfort, an ideal wearability and a perfect integration with the lighting systems.

MADE IN ITALY

Made to measure and entirely in Italy, in-house, both the frames and the lenses, the Loupes are today a necessary tool to grant advanced performance and a better accuracy during the diagnostic and the surgery phase.

Techne

EVO

A mix of high-tech materials for an ultra-lightweight system
Independently adjustable interpupillary distance
Protective lens included
Can be worn over prescription eyewear

AIR

Unique ergonomic frame
Extremely intuitive adjustment of the optical system
Protective lens included
Can be worn over prescription eyewear

HEADGEAR

Technique

The special features of Univet Galilean optical system allows an innovative approach to magnification systems. The exclusive models, proposed with pre-defined interpupillary distances, maintain the advantages and optical characteristics of a TTL device.
